

Secrets Unsealed has received many inquiries, asking how our ministry feels about the Compliance Document that the General Conference Annual Council approved in early October 2018.

As a supporting ministry of the Seventh-day Adventist Church, Secrets Unsealed fully supports the decisions that the World Church made at the General Conference Session in San Antonio, Texas in 2010. We also support the approval of the Compliance Document by the Annual Council in early October 2018.

Furthermore, we are deeply disappointed and saddened by the negative response of the North American Division and several of its Unions, Conferences and institutions.

We daily pray that the Lord will continue to guide our beloved Seventh-day Adventist Church, and bring about a spirit of unity.
